SUBJECT INDEX TO VOLUME 46

A

Abdominal adiposity, oral glucose tolerance test improvement with aerobic training and, 875
Abstracts, 121, 255, 396, 661, 798, 1061, 1181, 1334, 1486
  American Geriatrics Society and the American Federation for Aging Research, 1998 meeting, S1
Abuse. *See* Mistreatment of elders
Accelerometry, balance deficit detection and, 426
Accountability, in managed care, 338
Acquired immunodeficiency syndrome
  characteristics of, 153
  prevalence older people, editorial, 244
Activities of daily living (ADL)
  benzodiazepine and, 71
  executive cognitive ability and, 590
  outpatient evaluation and management, community-dwelling older persons, 296
  urban and rural populations, comparison study, 65
Adalat Oros, gastrointestinal dysfunction and, 656
Adductor pollicis muscle, maximum voluntary force, after hip fracture, 999
Advance care planning, capacity to discuss, in nursing homes, 1055
Aerobic training, oral glucose tolerance test improvement and, abdominal adiposity changes and, 875
Aging
  balance and gait performance and, in urban and rural populations, comparison study, 65
  bone mineral metabolism and bone mass and, in Native American women, 1418
  choroidal blood flow and, 484
  dehydroepiandrosterone and, editorial, 391
  functional status and, benzodiazepine effects on, 71
  future of managed care and, 498
  gastroesophageal reflux, esophageal motility and, 1534
  global issues in, 656
  physical activity, strength, body mass index and, 274
  sleep quality, circadian timing system changes and, 458
Agitation, in Alzheimer's disease, treatment environment correlates of, 862
AIDS. *See* Acquired immunodeficiency syndrome
Airloss hydrotherapy, skin lesions associated with incontinence and, 569
Alcohol consumption
  age-related macular degeneration and, editorial, 114
  age-related macular degeneration risks and, 1
Alendronate, esophageal stricture and, 1581
Alternative medicine/therapies, rhubarb stalk fiber for reduction of high cholesterol and, 626
Alzheimer's disease
  antidementia drugs ethics, commentary, 784
  antioxidant therapy for, 1566
  APOE genotype association with cardiovascular disease in, 962
  Aricept-induced nightmares in, 119
  brain SPECT scanning in, 657
  diagnosing, clock drawing test in, 1267
  DNA repair inhibitors effects on test for, 1331
  early, combination therapy for, commentary, 1322
  estrogen replacement therapy and, 95
  managed care and, editorial, 780
  management of, Medicare beneficiaries, 762
  neuropsychiatric symptoms in, 210
  nonpharmacological interventions cost effectiveness in, 1481
  nutritional educational program and, 896
  positron emission tomography monitoring of brain changes with, 96
  prognostic factors in, very old persons, 444
  special care unit resident agitation, environmental correlates of, 862
  weight change relation to severity and mortality in, 1223
  weight loss preceding onset of, 540
Ambulatory practice, medical housecalls program and, 226
AMD. *See* Macular degeneration, age-related
Amnesia, disruptive behavior associated with, alprazolam effectiveness in, 620
Anemia
  ACE inhibitors and, 117
  pernicious, oral cobalamin for treatment of, 1125
Anesthesia, outcomes, in patients more than 100 years old, 988
Angiotensin-converting enzyme (ACE) inhibitors
  anemia and, 117
  evaluation use in chronic heart failure, nursing home residents, 1550
  underutilization in Q-wave anterior myocardial infarction, 751
Ankle brachial index, walking velocity and endurance predictors in peripheral arterial disease, 1355
Antibody levels, urinary, bacteriuria survival and, nursing home residents, 947
Antidementia drugs, ethical view of, commentary, 784
Antidepressant agents, geriatric depression and, 106
Antiepileptic drug therapy, evaluation of, in nursing facilities, 1137
Antihypertensive agents
  cognitive function and, 791
  MRI white matter findings and, 791
Antioxidant therapy
  Alzheimer's disease and, 1566
  cognitive status and, 1407
Antipsychotic agents, use in nursing homes, OBRA compliance, 198
Antispasmodic agents, oxybutynin, cognitive impairment and, 8
Apolipoprotein E phenotypes, dementia, mortality, and, 712
Arginine vasopressin, urinary incontinence and, in nursing home residents, 1274
Aricept, nightmares induced by, in Alzheimer's disease, 119
Arteritis
  giant cell, stroke and, 794
  temporal, bacteremia mimicking, 1056
Arthritis, lower extremity functioning and, 411
Aspirin, prevalence of use in myocardial infarction patients, 615
Assessment, dementia, posterior cortical feature distinctions, 98
Atherosclerotic disease, low-density lipoprotein cholesterol level measurement in, 1128
Atherothrombotic brain infarction, prevalence and risk factors, older Hispanics, 481
Atrial fibrillation, quinidine-induced diarrhea treatment and, 932
Atrial natriuretic peptide, mortality association with, very old persons, 453
Attention, falls and frailty relation to, 758
Attitudes, toward older persons and caring for older patients, scale for measuring, 1425
Austrian Stroke Prevention Study, antioxidants and cognitive status in, 1407

B

Bacteremia
  mimicking temporal arteritis relapse, 1056
  mortality predictors in, 14
  predicting mortality in, 1327
Bacteriuria
  urinary antibody level and survival in, nursing home residents, 947
  urine analysis and, editorial, 1051
Balance. *See also* Sway
  after hip fracture, as health outcome predictor, 169
  impaired one-leg, falls and, 1176
  low resilience sole material in shoes and, 1363
  sway and, 438
  in urban and rural populations, comparison study, 65
Balance deficits, detection in frequent fallers, 426
Balanced Budget Act of 1997, implications for geriatric medicine, 530
Barthel index, functional status assessment, bacteremia and, 14
Beaver Dam Eye Study, hearing aid use in adults with hearing loss, 1075
Bed rails, deaths caused by, 794
Behavioral interventions, rehabilitative, in long-term care facilities, 771
Benzodiazepine
  falls related to, 1178
  functional status and, 71
  withdrawal delirium, in hospitalized patients, 1020
Biomechanics Force Platform, measures of sway, 431
Bladder outlet obstruction, urine flow rate for, men with voiding symptoms, 1118
Bladder temperature, long-term ambulatory monitoring of, 1582
Blood flow, choroidal, age dependence of, 484

Blood pressure, reduction, hemodynamic cerebral infarction and, 1179
Blue Mountains Eye Study, visual impairment and falls, 58
Body composition
  insulin-like growth factor-I and, 822
  physical fitness and, association with dehydroepiandrosterone, 263
Body mass index, physical activity and, 274
Body temperature
  age-related sleep disturbance and, 1480
  sleep and, middle-aged and older subjects, 458
Bone fracture, tamoxifen association with rate of, nursing home residents, 968
Bone mass, aging effects on, in Native American women, 1418
Bone mineral density
  aerobic exercise and, postmenopausal women, 143
